INNOVATION

Luke's Editorial

INNOVATIVE PRODUCTS

All part of the Trade Only advantage

At Plumbers Choice our focus is on making the working lives of plumbers easier. Because of our Trade Only passion, we are always on the look out for new products that makes plumbers' work easier or more efficient. We believe we have developed a reputation for bringing innovative products to market across the whole country. We have also been effective in passing on information to our suppliers to assist them in developing improved and new offerings. In this edition of the newsletter we are highlighting some of the innovative products that we have been instrumental in bringing to the market.

This month we are asking plumbers for their ideas on products they would like to see on the market. Some plumbers may even have products they have begun to develop themselves and would like assistance to get their ideas to market. We are keen to get involved or at the very least point you in the right direction.

I look forward to hearing from you.

SAVE \$70

Really handy tool. Got us out of some trouble when we had to fix a handy man's rough in job where he also tiled over existing tiles!

Declan from Declan Smith Plumbing

Quality tool, use it regularly.
Great and easy to use.

John from Icon Plumbing & Gas Fitting

Great tool. Does exactly what it is supposed to do. Cuts tiles, tube spanner goes in to get spindles out. Easy!

GETS THE JOB DONE

Tool Box

The Extreme All-in-One Adhesive & Sealant

ALL TRADES. ALL CONDITIONS.

Tool Box™ is an MS polymer, moisture curing adhesive and sealant in one that cures to form a tough yet flexible, water resistant seal. Tool Box™ is extremely versatile, it sticks and seals just about anything. It's a true 'tool box' in a cartridge.

APPLICATIONS

- ✓ Sticks to Colorbond® when wet
- ✓ Seals air conditioning ducts and lap joints in box guttering
- ✓ Adhesive for fixing wall panels to studs, floor boards to joists
- ✓ Re-fixing loose ceramic tiles
- ✓ Adhering and sealing acrylic/ABS shower units
- ✓ Sealing gaps and expansion joints in concrete, brick, mortar, stonework, metal - almost anything

PLUMBING HERO

OUR PLUMBING HERO
THIS MONTH IS
TYRON

THANKS TYRON!
ENJOY YOUR \$200
STORE CREDIT!

DANGER RANGER, TYRON, MAKES THE WORLD A SAFER PLACE!

JUST WANTED TO SHARE THIS PIECE OF DIY PLUMBING I CAME ACROSS ON A FARM NORTH OF PERTH WHERE I LIVE. WAS CALLED OUT BY A LOCAL FARMER COMPLAINING HE HAD LOW WATER PRESSURE ON HIS SOLAR HWU & HE HAD TRIED TO RESOLVE IT BUT FAILED. WHEN I GOT TO HIM & CLIMBED ON HIS ROOF THIS IS WHAT I FOUND... HE HAD INSTALLED AN ONGA PRESSURE PUMP ON THE BACK OF HIS SOLAR TO GET MORE PRESSURE. CHECK OUT HOW HE CLAMPED IT ON WITH CLAMPS... HE BURST THE SOLAR COLLECTOR, ABSOLUTELY LOST FOR WORDS.

I EVENTUALLY EXPLAINED THE BEST OPTION FOR HIM WAS TO INSTALL A PRESSURE PUMP TO HIS HOME & A NEW HWU WHICH I DID & NOW THE FAMILY IS PLEASED WITH THE OUTCOME & SAY WE AS PLUMBERS ARE NOT SUCH BAD PEOPLE... MAYBE THEY SHOULD HAVE CALLED ME IN THE FIRST PLACE.

WELL DONE TO TYRON OF KARA PLUMBING & GAS, YOU ARE THE DESERVING WINNER OF OUR HERO OF THE MONTH

Hey! Just a tip for young players

If you tie plastic bags around down stairs open ends it catches all the water when you take up stairs fixtures apart breaking the suction.

PAN SCREWS WITH A PHILLIPS DRIVE ARE QUICKER AND EASIER TO USE.

One thing that many people don't realise is that the Phillips drive in the head of the pan screw is a size No 3. Using the correct size Phillips drive gives better control of the screw and reduces the chances of slipping and chattering. No 3 Phillips drivers are available in 100mm (Code 9609).

STYROWEDGE

A wedge type fastening for polystyrene walls

NB. Ensure all penetrations are sealed.

Step 1 Using a sharp blade, cut a 30mm slot, 50mm deep into the wall.

Step 2 Take 2 Styrowedge halves and join the smooth sides together.

Step 3 Insert the Styrowedge into the slot in the wall.

Step 4 Ensure the Styrowedge is flush with the finish of the wall.

Step 5 Place the downpipe and clip in position on the wall. Insert an 8-12 gauge screw into the Styrowedge and tighten into place.

Step 6 Complete for remaining fastenings.
