Luke's Editorial

Love Trade Only

The Trade Only concept is still in its infancy in the plumbing industry. Some of our larger competitors have been around for nearly 100 years. Whether the concept really takes hold and becomes the industry standard is really up to plumbers.

If you like what we stand for you do need to support us to ensure we will be around well into the future.

LUKE BOLTON
DIRECTOR, PLUMBERS CHOICE

WE'RE HIRING!

Interested in joining our team and creating real change in the plumbing industry?

Plumbers Choice is always on the look out for great people to join our business. No more working Saturdays.

**DOES
YOUR
JOB
COMPLY?**

*Fast
and Simple
Solution!*

1. Take 2 pieces of Styrolag and place around pipe

2. Fit two halves together, secure first end with duct tape

3. Secure other end with duct tape. Job completed.

DOES YOUR JOB COMPLY?

10 metres x 100mm x 5mm

- Compression resistant
- Closed Cell Polyethylene
- Prevents water penetration under the slab
- Complies with the following Australian Standard...

AS2870-2011 5.6.4 (a)

"Closed-cell polyethylene lagging shall be used around all stormwater and sanitary plumbing drain pipe penetrations through footings. The lagging shall be a minimum of 20mm thick on Class H1/H1-D sites and 40mm on Class H2/H2-D and Class E/E-D sites."

PAN SCREWS WITH A PHILLIPS DRIVE ARE QUICKER AND EASIER TO USE.

One thing that many people don't realise is that the Phillips drive in the head of the pan screw is a size No 3. Using the correct size Phillips drive gives better control of the screw and reduces the chances of slipping and chattering. No 3 Phillips drivers are available in 100mm (Code 9609).

STYROWEDGE

A wedge type fastening for polystyrene walls

Great for fixing downpipes to foam walls

NB. Ensure all penetrations are sealed.

Step 1 Using a sharp blade, cut a 30mm slot, 50mm deep into the wall.

Step 2 Take 2 Styrowedge halves and join the smooth sides together.

Step 3 Insert the Styrowedge into the slot in the wall.

Step 4 Ensure the Styrowedge is flush with the finish of the wall.

Step 5 Place the downpipe and clip in position on the wall. Insert an 8-12 gauge screw into the Styrowedge and tighten into place.

Step 6 Complete for remaining fastenings.
