LUKE'S EDITORIAL

If your plumbing business has survived the past year then it can survive anything. Well done to all the small and large plumbing businesses that made it through the financial year we have just had. It is reassuring to all of us in this industry that we are an essential part of the community. Plumbers provide clean water, sanitation and heating and cooling which are all essential to human existence.

When things get tough, plumbers should feel secure and proud of the position they hold in the modern world. At Plumbers Choice we acknowledge the importance of plumbers and will never undermine plumbing businesses in the role they play. We are proud of our Trade Only policy and will never seek to make a quick buck by selling to the general public.
