# Luke's Editorial

Its a New Year but we have the same goal.

**To change the way plumbing supplies are sold in Australia, to a trade only industry.**

NO DIY is something Plumbers Choice is very passionate about. Many people don't believe we turn away weekend warriors, home handymen, builders and more each and every day.

In Australia over 3,300 people are hospitalised each year as a result of doing DIY work. With a large number of these being plumbing work.

So while some suppliers are after a quick buck and will sell to anyone, our Trade Only policy is extremely strict.

A quick buck is not worth a life, nor is it worth ruining our industry. We want to support those who support us and try to help ensure there are not only less DIY deaths but plumbers' livelihoods are protected too so the industry can be as strong as ever for the next generation of plumbers.

**LUKE BOLTON**  
DIRECTOR, PLUMBERS CHOICE  
**plumbers choice** TRADE ONLY

**Please Note: As of February 1st 2023 our minimum order for free delivery will now be \$150**

# NIPPLE CUTTER & CATCHER

- Single piece shaft results in less chattering
- Provides the perfect sealing surface
- Create a flat or chamfered end on the nipple

**\$106<sup>51</sup>**  
INC. GST

**CODE: 9231**

**NEW CLEAR CATCHER  
TO SEE HOW FAR YOU  
HAVE TO CUT**

## TO CREATE THE PERFECT SEALING SURFACE:

### STEP 1

Fit the nipple cutter into the clear catcher so that the flat cutting blade is facing the nipple.

### STEP 2

Cut the nipple to length using the flat blade.

### STEP 3

If required, reverse the tool in the drill. Using the angled blade, cut a chamfer on the nipple.

# PIPE CUTTER INTERNAL WITH DIAMOND WHEEL

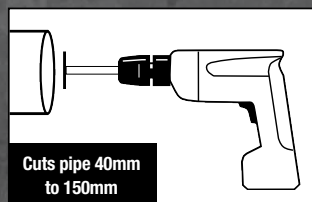

- Will cut pipe from 40mm up to 150mm
- Fits into a battery drill for easy use
- Diamond wheel will not blunt on concrete or tiles
- Extension Bar available to allow cutting at greater depths
- The safe way to cut PVC when close to tiles or brick work

BRISBANE, MACKAY &  
GOLD COAST, QLD

## What made you become a plumber?

I started as a fitter and turner straight out of school, but I hated being in the same place doing the same thing day in, day out. Bell to start, bell to end, bell to take smoko. It was like being back at school. My dad was a plumber so I started working with him and never left.

## What positive changes have you seen in the industry over your journey?

The ease and speed of getting materials. Gone are the days we have one local shop and have to wait for gear to come in. Also the ability to track jobs and information with photos, notes etc with online apps.

## What problems do you face in the current market?

The shortage in skilled labour and the rapid and spontaneous rise of material costs.

## Why do you use Plumbers Choice?

It makes us more efficient. We have access to bulk materials and pricing with speedy deliveries that are mostly next day. It means we can stock up the utes and control stock without having to always stop locally.

## What are your thoughts on "Trade Only"?

I love it, but the weekend warriors do help keep us employed. The wife calls to fix the husband's mistakes. We've worked hard as an industry to not end up like some others where standards have slipped and to stay a fully licensed trade.

## Any advice for the next generation of plumbers?

Learn how to use hand tools and to weld! Press is good, but it takes the craftsmanship out and stops you learning how to think outside the box. Don't be scared to jump in the deep end and ask a lot of questions, and never be afraid to get it wrong.

## Fixings & Fastenings

### PAN SCREW CAP - PUSH IN

- Bag of 100

**\$20.22**  
INC. GST  
Code: 1406

**BOX  
100**

### PAN SAVERS NYLON

- Protect toilet pans from damage

**\$21.20**  
INC. GST  
Code: 1983

## PAN SCREWS WITH A PHILLIPS DRIVE ARE QUICKER AND EASIER TO USE.

One thing that many people don't realise is that the Phillips drive in the head of the pan screw is a size No 3. Using the correct size Phillips drive gives better control of the screw and reduces the chances of slipping and chattering. No 3 Phillips drivers are available in 100mm (Code 9609).

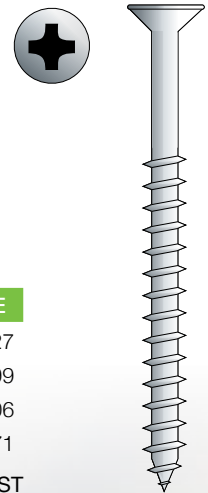

**BOX  
100**

### PAN SCREWS

# STYROWEDGE

A wedge type fastening for polystyrene walls

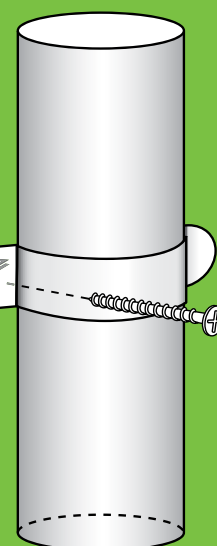

**\$58.42**

INC. GST  
Code: 1222

BAG QTY  
50

Great for fixing  
downpipes  
to foam walls

NB. Ensure all penetrations are sealed.

**Step 1** Cut a 30mm slot, 50mm deep into the wall.

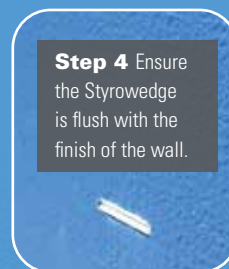

**Step 2** Take 2 Styrowedge halves and join the smooth sides together.

**Step 3** Insert the Styrowedge into the slot in the wall.

**Step 4** Ensure the Styrowedge is flush with the finish of the wall.

**Step 5**

Place the downpipe and clip in position on the wall. Insert an 8-12 gauge screw into the Styrowedge and tighten into place.

**FIX ANY LEAK YOU FIND IN ANY PIPE**

- Each fitting designed to fit a wide range of diameters
- Can slide freely back and forth
- Suitable for all cold water applications

**A MUST FOR EVERY MAINTENANCE PLUMBER**

**AVAILABLE IN**

24mm - 28mm **Code: 7174**

31mm - 35mm **Code: 7175**

**1** Mark insertion depth

**2** Insert the pipe

**3** Tighten the nut

# water

## TESTING

### Flow Rate Cup Tester

- Scale measures flow rates of 0 to 17 litres per minute
- Measure water flow rates to determine if suitable flow is available prior to plumbing installation

**\$38.67**  
INC. GST

**Code 7276**

### Plumtest Thermometer Digital

- Measures temperatures from -50 degrees to 200 degrees Centigrade.
- It is perfect for checking the out flow temperature of hot water units, thermostatic mixers and tempering valves.
- Includes battery

**\$43.67**  
INC. GST

**Code 1324**

### Plumtest Test Bucket

- For pressure testing water systems are sealed and free from leaks
- Reliable and accurate test results
- Suitable for residential or commercial use
- 12L Solid Steel Bucket
- Quality 2 valve system

#### Kit includes:

- 1.5m long hose
- 4 spare washers

**Code 9866**

**\$547.03**  
INC. GST

### Plumtest Water Pressure Tester on Hose 2500 Kpa

- Universal brass connector will fit to 1 inch or 3/4 inch BSP thread
- Glycerin filled gauge protects workings
- High pressure hose allows flexibility to make reading gauge easier
- Dual scale reads in both KPa and PSI

**Code 1119**

**\$98.24**  
INC. GST

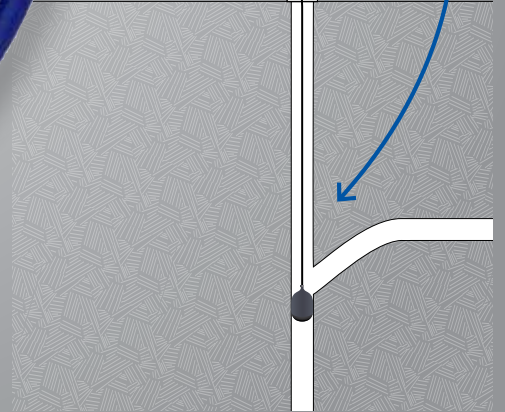

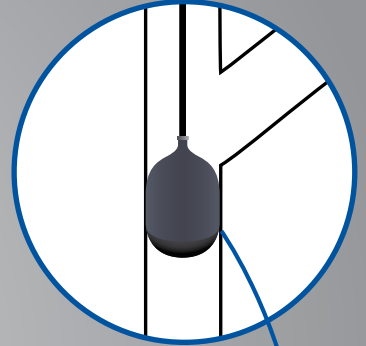

## INFLATABLE TEST PLUG 100MM

- Equipped with 2.5m hose
- To suit 100mm PVC
- Inflate with car pump
- Can be used down an inspection shaft

Code: 2009

**\$105.67**

**Equipped with  
2.5m hose**

## TEST PLUG ALUMINIUM 100MM

- A breeze to install
- 2 convenient tie-off points
- Size 100mm
