Luke's Editorial

It's estimated 34% of plumbing goods are still sold to the general public. Which clearly reflects the amount of unlicensed, unsafe plumbing work still being completed by DIYers.

It's estimated 34% of plumbing goods are still sold to the general public, which clearly reflects the amount of unlicensed, unsafe plumbing work still being completed by DIYers.

We at Plumbers Choice know you, the plumbers, have bought into Trade Only. You clearly see the benefits to yourself, the industry and the community. But with so much DIY plumbing work still taking place the message is obviously not clear to everyone else.

So it's time to spread the word. By doing so you can get your hands on a \$500 Plumbers Choice Gift Voucher.

We have included a "Stay safe, call a Licensed Plumber" sticker with every edition of this magazine.

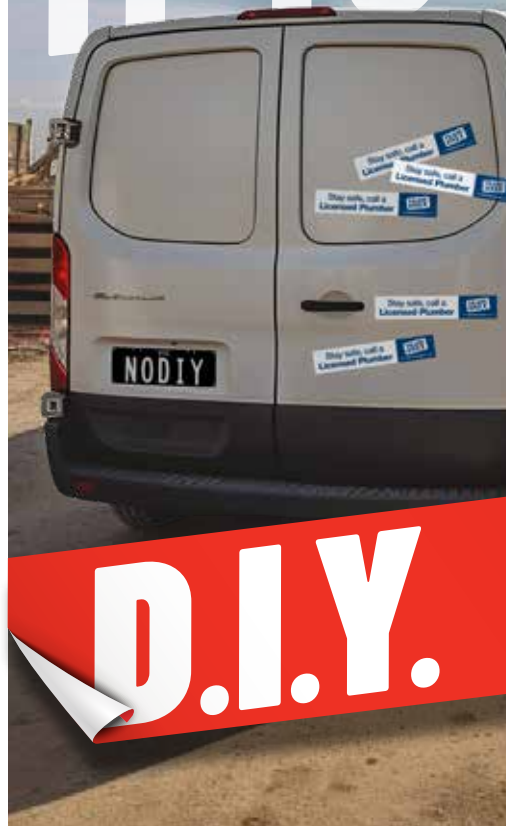

Simply stick your sticker on your truck, the local hardware counter, or heck, even your apprentice and then send a photo of where you've stuck it to: marketing@plumberschoice.com.au before October 31st 2023 for your chance to win!

Let's stick it to DIY and support Trade Only!

TIP OF THE MONTH

To get involved send us an email
info@plumberschoice.com.au

Every featured story receives
\$200
Store Credit

Cut the bottom off of a 2lt milk bottle when you remove a cistern inlet valve. The handle makes it easy to hold in place and the 2lt bottle fits snugly in between the wall and the pan or stop tap.
