WHAT DOES THE YEAR AHEAD LOOK LIKE FOR OUR PLUMBING INDUSTRY?

2023 saw some uncertain times creep into our industry. Interest rate rises, new home builds slowing, builders going under and the cost of living increases, have started to take their toll on some plumbers and the industry.

In these slower times Trade Only becomes even more of an imperative. Its proven that when times are getting tough and the general public feeling the pinch and licensed trade use drops.

Not only is this a safety risk it trickles down to the plumber who loses out on work.

What is 2024 going to bring?
The industry has always had its peaks and troughs; we hope 2024 is a good year for all and for Trade Only.

LUKE BOLTON
DIRECTOR, PLUMBERS CHOICE

RIGHT ANGLE GAS BALL VALVE

M x F 15mm

NEW!

Fewer fittings
required on installation

Saves installation time

Takes up less space than a
traditional install

Reduces the chance of gas leaks

Leaves a professional finish

AGA approved

"These gas valves have been a game changer for me. No need to worry about flaring bits, bending copper and a compression gas cock. The fact that this is a right angle is genius."

I wasn't a believer when these were first introduced, though now I am!"
