Clinton's Editorial

Trade Only, the winning team to be a part of...

It's been a tough year for many plumbers, with the slump in the building industry, interest rate increases, spikes in DIY plumbing to save a quid, and of course, the unease around an election. But it's now September, the footy finals are upon us, the sun is starting to shine, and it feels like the industry may be picking up.

To those of you who've battled through and found it tough all year, well done. With the coming months looking more optimistic for our trade, it's starting to feel like a bit of finals fever for our own industry. To all those who have supported us, thank you. We appreciate your support for Plumbers Choice and for a trade-only industry, and we hope you appreciate our support.

We are your groundsmen, your physios, your bootstrappers, and your biggest fans – keeping you stocked with all the gear you need to get the job done, while helping build a trade-only industry that's just for plumbers, not for the DIYers.
