Clinton's Editorial

Market leaders in plumbing innovation!

Everyone knows Plumbers Choice is a market leader in plumbing innovation; we bring more products to market than anyone else. Some are our own, some come from you the plumbers and many are from the various great suppliers we have. We've seen some great new homes products such as DualPex or Grey Fit Off Thread Tape. We've seen some great maintenance products like the Flexy Flange or Plumtool Lugged Elbow Extender.

But the latest product to hit the market that has us excited is one everyone can benefit from. **The NEW Twister Trap** is the one stop trap for maintenance or renovations plumbers to keep on the truck. With its versatility, it can be used as a Combo Trap, P Trap or a Low Level Combo Trap.

For the new home plumbers it is the only trap on the market to come pre-assembled and we all know time is money. Additionally plumbers avoid the hassle of losing loose trap rubbers. And say goodbye to messy dishwasher hoses or awkward installs thanks to its innovative 360 degree rotating nipples.

Got a product or tool idea? Whether its a new product completely or just making an existing one a little rounder we want to hear about it. If it will make plumbers' lives easier, finish the job quicker or leave a more professional finish then we want to help bring it to market. Head to our website and go to our innovative products page to submit your idea today!

MEET OUR PLUMBERS CHOICE STAFF

JAKSEN.J
SALES TEAM LEADER

Q. How long have you been with Plumbers Choice & what do you like about it?

A. I've been with Plumbers Choice for 9 years. How the time flies! The best part is definitely the people. We've got a great team and the customers keep things interesting, and no two days are ever the same.

Q. What are some of the biggest changes to PC you've seen in your time here?

A. We've grown a lot - more branches, more products, and more people. It's been great seeing the business continue to expand without losing what made it such a good place to work in the first place.

Q. How have you seen the industry change in that time?

A. The industry's definitely become faster-paced. Technology has made things easier, and customers have more choice than ever, so it's pushed everyone to keep improving their service and finding better ways to support customers.

Q. What was your first job?

A. My first job was as an "Underwater Technician" (otherwise known as washing dishes at a pub!). It taught me two things: turn up on time, and don't call in sick on a Friday.

Q. What's your favourite travel destination?

A. Japan. Great food, great culture, and somehow everything just works. It sets the bar pretty high for every trip after that.

Q. What's something that would surprise people about you?

A. I've played the drums for many years in bands. Check out Whoopie Cat on Spotify... shameless self-plug!

Q. How do you fill your time outside of work?

A. I'm always looking to sneak in a cheeky nine holes of golf whenever I can. Otherwise, you'll usually find me catching up with family and mates, watching a bit of sport, playing or listening to music, planning my next holiday—or, if none of that's happening, settling in for some classic Netflix.

Come in and see our knowledgeable staff at our Trade Outlets - Monday - Friday

LITTLE PLUMBERS PLAYGROUND

How to play Word Wheel

1. Find as many plumbing related words as you can that are 4 letters or more.
2. Every single word must include the middle letter [A].
3. You can only use each letter once per word.

Answers: taps, trap, warp, pipe, waste, water

If you have Vandalproof taps and you cannot remove the grub screw at the rear of the handle, you can remove the entire assembly and service with the handles still attached.

You'll want to screw the bonnet all the way in then turn the handle till the o-ring and grease reservoir are visible.
